## Case Study: Banner Installation

### Client

Harris Sign – Coventry MBC

### Problem

Hang two banners, covering four storeys of a thirteen storey office building, within Coventry City centre, to promote the World Children's Games and the British Olympic bid.

### Solution

Rope Task technicians rigged wire frame attached to non-penetrating anchor brackets. Banners were then attached to frame and unveiled in the presence of MP's and large crowd in celebration of World Children's Games, all using rope access techniques to gain access to elevations of the building.
